

Respirator Protection: Respirator User's Responsibilities

Respirator User - employee, student, or visiting scholar – is an individual who wears a respirator to protect their lungs from a hazardous substance in the area.

The respirator user is responsible for:

Quick Take

- See our [Respiratory Protection Program](#) for more information.
- Seek assistance in the evaluation of respiratory hazards.
- Contact the Respiratory Protection Program Administrator by clicking [here](#).
- Individuals must be [medically cleared](#) before getting fitted for a respirator.
