NO. 3.7

TITLE: Laser Safety Training

Page 1 of 1

ISSUED: 5/00 **REVISED:** 9/15

Laser Safety training is required for individuals operating class 3b or above lasers. The Environmental Health and Radiation Safety Department provides basic laser safety training (Section 9, Laser Safety). Principal investigators or supervisors are responsible for providing additional training pertaining to the Standard Operating Procedures to the laser users working under their supervision.
