

**TEMPLE UNIVERSITY  
ENVIRONMENTAL HEALTH AND RADIATION SAFETY**

**NO. 3.8**

**TITLE:** Specific Training

**Page 1 of 1**

**ISSUED:** 5/00 **REVISED:** 9/15

In addition to the mandatory training designed to meet regulatory requirements, the Environmental Health and Radiation Safety Department (EHRS) provides specific training upon request. This training is usually designed by a collaborative effort between the EHRS, principal investigators and supervisors.

The training is designed to address specific departmental safety concerns and may involve outside or inside experts from other departments.
